**FINJAN'S AMENDED POST-TRIAL MOTIONS FOR INVALIDITY OF
U.S. PATENT NO. 7,185,361**

Finjan Software Ltd. and Finjan Software, Inc. (collectively "Finjan") hereby requests the Court grant a judgment of invalidity of U.S. Patent No. 7,185,361 ("the '361 Patent") as a matter of law. The Court entered judgment on March 28, 2008 (D.I. 242). Under Federal Rule of Civil Procedure 50(b), a court should grant a renewed motion for judgment as a matter of law and overturn the jury verdict when there was no legally sufficient basis for a reasonably jury to find for the nonmoving party on an issue. The jury's verdict returned on March 12, 2008 on the validity of the '361 Patent lacks evidentiary support. Finjan presented conclusive evidence that the '361 Patent is both anticipated and made obvious by the "Check Point Firewall-1 Architecture and Administration Version 4.0" reference under 35 U.S.C. § 102 and § 103, and therefore is invalid. Secure Computing presented no rebuttal to this conclusive evidence.

Therefore, for the foregoing reasons and those that will be set forth in Finjan's briefs to be submitted in accordance with the stipulated briefing schedule, Finjan respectfully requests that the Court grant its Motion.

OF COUNSEL:
